Please see DEQ comments. Most of these can be addressed and a few need clarification to understand how the comment is different than what is already presented.

The biggest question is the request for a comparison of cost for this action verses a sitewide complete RIFS and ROD. This cannot be done since the RI is not complete, the FS is not complete, and there is no ROD. That is why this is an interim action.

I will try to find availability for a conference call with DEQ.

Katrina,

See attached DEQ response to the Draft Source Control Proposed Plan. I apologize for the delayed response.

Feel free to contact me if you have any questions after you've had time to review.

Thank you.

Katrina,

I am finishing up on my comments regarding the draft source control proposed plan.

You should receive them next week. I apologize for the delay.

Thank you. Have a good weekend.

-Todd

Katrina,

DEQ is finalizing comments for the Draft Source Control Plan for the Wilcox Oil Company Superfund Site.

DEQ respectfully requests a 7 day extension from the March 9 deadline to accommodate for sufficient management review. Comments would be submitted by March 16, 2018.

Thank you for the consideration.

Have a good day.

Please find attached the electronic draft of the Source Control Proposed Plan. A formal letter requesting consultation and review will arrive in the mail.

The purpose of this document is to propose cleanup action for the source areas we have identified as the remedial investigation continues. This document is specific to these source areas and will provide us with a pathway to address these areas earlier in the process and prior to completing the full site characterization and risk assessments. All remaining aspects of the site (e.g., remedial investigation, feasibility study, risk assessments, etc) will continue concurrent with this proposed plan. Final site-wide documentation will be provided in the remedial investigation report, the human health and ecological risk assessments, the feasibility study, and finally the site-wide decision document.

The documents attached are listed and described below. Once comments are received and incorporated, the document will be formatted to include the figures and text boxes in the appropriate locations and the document will be release to the public for review and comment.

Thank you for your time and review. Please call with any questions.

Wilcox Source Control PP draft figures 2-6-18.pdf: site figures

Wilcox Source Control draft Proposed Plan text 2-6-18.docx: the prosed plan text.

Wilcox Source Control draft Proposed Plan text boxes2-6-18.docx: text box inserts that provide additional information on process.

Wilcox Source Control PP tables draft 2-6-18.docx: the prosed plan tables.
